

# SW-63 Commercial Cooler

Specification sheet | 63 L free-standing glass-door cooler | Energy class A

## General

|              |                                                                                                                        |
|--------------|------------------------------------------------------------------------------------------------------------------------|
| Model        | SW-63                                                                                                                  |
| Product type | Commercial cooler, refrigerating appliance with a direct sales function (self-contained, closed, display and sale use) |
| Installation | Free standing                                                                                                          |
| UK importer  | Maze Rattan Ltd, Boundary Road, Haverhill, CB9 7YH                                                                     |

## Physical

|                          |                     |
|--------------------------|---------------------|
| Capacity                 | 63 L                |
| Dimensions (W x D x H)   | 430 x 465 x 660 mm  |
| Total display area (TDA) | 0.19 m <sup>2</sup> |
| Defrost                  | Automatic           |
| Interior light           | Yes                 |
| Night cover              | No                  |

## Electrical and refrigeration

|                                  |                                                               |
|----------------------------------|---------------------------------------------------------------|
| Supply                           | 220-240 V / 50 Hz, 0.4 A                                      |
| Connection                       | Non-detachable power cord fitted with plug                    |
| Compressor                       | MG1060Y                                                       |
| Refrigerant                      | R600a, 23 g                                                   |
| Blowing agent                    | C <sub>5</sub> H <sub>10</sub>                                |
| Temperature zone / climate class | Zone 1 / climate classes 4, 5, 7                              |
| Temperature class                | H2 (warmest product 10 °C or colder, coldest -1 °C or warmer) |
| Recommended setting              | 5.0 °C                                                        |

## Energy (Regulation (EU) 2019/2018, ambient Set 1: 25 °C / 60% RH)

|                                    |                                                                             |
|------------------------------------|-----------------------------------------------------------------------------|
| Energy efficiency class            | A                                                                           |
| Energy efficiency index (EEI)      | 9.7 rated (8.7 measured)                                                    |
| Annual energy consumption          | 344.93 kWh/a rated (311.71 kWh/a measured), shown on label as 345 kWh/annum |
| Daily energy consumption           | 0.945 kWh/24h rated (0.854 kWh/24h measured)                                |
| Standard annual energy consumption | 3565.23 kWh/a                                                               |
| Ecodesign limit (Reg. 2019/2024)   | EEI max 100 from 1 March 2021; max 80 from 1 September 2023. Passes both.   |

## Test report

|               |                                                                                                                  |
|---------------|------------------------------------------------------------------------------------------------------------------|
| Report        | SGS-CSTC Standards Technical Services Co., Ltd. (Shunde Branch), report GZEE220800278932, issued 24 October 2022 |
| Test standard | ISO 23953-2:2015; Regulations (EU) 2019/2018 and 2019/2024                                                       |
| Tested        | 12-22 August 2022                                                                                                |

Figures are taken from the test report above and relate to the sample tested. Rated values are those declared in the report's product information sheet.
